

# SYED UZAIR AHMED

Sr. Frontend Engineer

uzairahmed74372@gmail.com | +92 348 3016446

## EDUCATION

---

<b>Pakistan Institute of Professional Science &amp; Technology (PIPS-TECH)</b> Computer Information Technology (CIT) Diploma of Associate Engineering	Karachi, Pakistan 2019 - 2022
<b>Govt. Degree Boys College Buffer Zone</b> Pre-Engineering Intermediate	Karachi, Pakistan 2019 - 2020
<b>Ghazi Foundation Schools &amp; Colleges</b> Computer Science Matriculation	Karachi, Pakistan 2016 - 2018

## EXPERIENCE

---

### **InterNative Labs, LLC | Senior Frontend Engineer** Karachi, Pakistan | Jan 2023 - Present

As a Senior Frontend Engineer at Internative Labs, I lead the development of cutting-edge web and mobile applications using Next.js, React.js, React Native, and Astro. Leveraging my expertise in Tailwind CSS, I ensure sleek and responsive user interfaces that elevate the user experience. Collaborating closely with Product Managers, Software Quality Assurance (SQA) professionals, and the design team, I provide valuable technical insights, driving successful product implementation. I also play a pivotal role in guiding and mentoring junior developers, fostering a culture of learning and growth within the team.

### **InterNative Labs, LLC | Frontend Engineer** Karachi, Pakistan | Apr 2022 - Dec 2022

At Internative Labs, I spearhead the development of diverse projects, including an e-commerce admin dashboard, integrated payment methods, and feature-rich real estate applications. Leveraging my expertise in Next.js, React.js, React Native, and Astro, I ensure the seamless functionality and user-friendly interfaces of these applications. With a strong command of Tailwind CSS, I design visually appealing and responsive user interfaces that enhance the overall digital experience for our users. Through hands-on development and optimization, I contribute to the success of these projects, delivering high-quality solutions that meet business requirements and exceed user expectations.

### **Coupon Approve | Software Engineer (Remote)** Amsterdam, North Holland, Netherlands | Nov 2020 - Apr 202

- Developing and implementing code in compliance with established design and architectural principles, ensuring high-quality, efficient, and scalable solutions.
- Documenting, testing, deploying, and providing ongoing maintenance and support for various platforms, applications, databases, and solutions.
- Providing assistance and training to colleagues, fostering a collaborative and knowledge-sharing environment within the team.
- Undertaking various tasks related to the nature of the role, ensuring the smooth execution of projects and initiatives.
- Driving code improvements and refactoring to enhance the performance, scalability, and maintainability of the applications.
- Enforcing best practices and coding standards, ensuring adherence to quality and security protocols across the development process.

### **Interns Pakistan | React Javascript Developer (Intern)(Remote)** Pakistan | Oct 2020 - Nov 2020

### **Interns Pakistan | Frontend Developer (Intern)(Remote)** Pakistan | Sep 2020 - Oct 2020

An Immersive Internship Program that prepares me for the world's most in-demand career. A six weeks program completely based on learning and challenges. The internship track is built by an industry expert that let develop the skills in the areas most important

## SKILLS

---

Programming Languages: JavaScript, Python, HTML, CSS, C#  
Libraries/Frameworks: React JS, Next JS, Astro, Sanity, Strapi, TailwindCSS, NextUI, SWR

## PROJECTS / OPEN-SOURCE

---

**Tip Code | Link** *ReactJs, NextJs, TailwindCSS, Nodejs, MySQL, ChartJs, React Hook Form, Axios*

- With the TipCode project, my goal was to provide users with a seamless solution for making payments through a convenient QR code scanning process.
- By integrating Stripe as the payment gateway, I ensured secure and efficient transactions, enhancing the overall payment experience for users.
- The project also included the development of an intuitive admin dashboard, enabling administrators to access comprehensive revenue charts and transaction history, facilitating informed decision-making and performance analysis.

## Zenith Novels

*ReactJS, NextJS, TailwindCSS, Markdown, Axios, S3*

### **Problem Statement and Impact:**

- With the Zenith Novels project, my aim was to create a platform where users could seamlessly write and read novels and comics, fostering a vibrant community of writers and readers. The platform aimed to provide an intuitive and engaging experience for users, allowing them to share and explore creative content effortlessly.
- The final release/launch of Zenith Novels impacted a substantial user base, with over 1,000 users actively engaging with the platform, fostering a thriving community of writers and readers.

### **Key Features:**

- Users had the ability to follow each other, track view counts, manage their profiles, and create, update, and delete their content, fostering an interactive and collaborative environment.
- As the administrator, I implemented comprehensive user management functionalities, enabling efficient user moderation and content management. This included the ability to delete users and novels to ensure a safe and secure environment for all users.
- To support creators and encourage high-quality content creation, the platform offered a subscription-based model. Users could opt for a premium subscription, granting them exclusive access to additional features and content. Stripe was integrated into the platform for secure and seamless subscription management.
